VELOCITY TARGET REPORT

Key topics in logistics require a deeper look. That's why, each month, DCV transmits a content-specific e-newsletter called the "Velocity Target Report," bringing into focus our most recent and best-read coverage on a timely and key topic.

As sole sponsor, you choose from any topics listed here on the calendar, or provide a topic of your choice, so you can get your message in front of the right prospects and buyers. Your sponsorship allows you to choose the headline and subject line of the e-newsletter, and to submit an article or two of your own to appear along with our award-winning content.
