# Welcome to DC VELOCITY

## The logistics industry's trusted source for thought-provoking content and impactful marketing solutions.

Consumer demands ushered in changes that have been reshaping our industry at a lightning pace. Then Covid-19 entered the picture, adding uncertainty in almost every aspect of our lives and driving monumental modifications in business processes. Now, as we rethink and rebuild our supply chains based on lessons learned during Covid-19, we once again find ourselves living in a dynamic and ever-changing world.

Today, marketing success is still built on four distinct pillars: Brand, Content, Leads, and Results. At DC VELOCITY, we have carefully designed our advertising, sponsorship, and marketing opportunities around these four elements.

Within this framework, we will help you establish and raise brand awareness, leverage your content to promote your company's thought leadership and subject-matter expertise, and use that branding and content to generate solid, actionable leads—all leading to measurable results that will confirm your success.

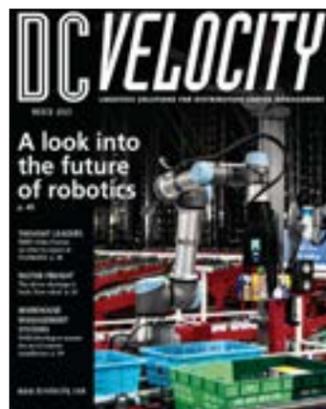

We provide unmatched reach to DC and warehouse operations managers as well as to supply chain and transportation logistics decision-makers. Our audience profile features a large concentration of high-value buyers of logistics-related products and services, including third-party logistics service providers as well as small to mid-range companies and startups, who wield significant spending power.

Marketing to our exclusive database of targeted decision-makers is a great start for any marketing campaign; however, in the busy world we live and work in, it's critical to keep the attention of that audience, too. By offering thought-provoking news and analysis, we not only attract but also hold the interest of today's logistics professionals better than any other media brand in the market.

The volume of business information available to today's logistics executives can be overwhelming. That's why earning their trust as the market's most reliable and useful source of information is critical to a media brand's success.

As always, DC VELOCITY leads the market in offering "The Solutions You Want and the Results You Need."

Our editorial mission is a key differentiator for DC VELOCITY. As silos within the logistics industry disappear and organizations adopt a unified approach to managing transportation and material handling operations, DC VELOCITY's comprehensive approach to covering the U.S. logistics market aligns with this shift in supply chain management. Our approach earns lasting audience loyalty by delivering all the information they need in a direct, superb resource for logistics business intelligence.

## AUDIENCE

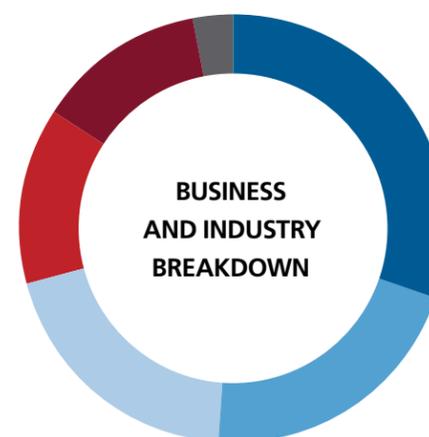

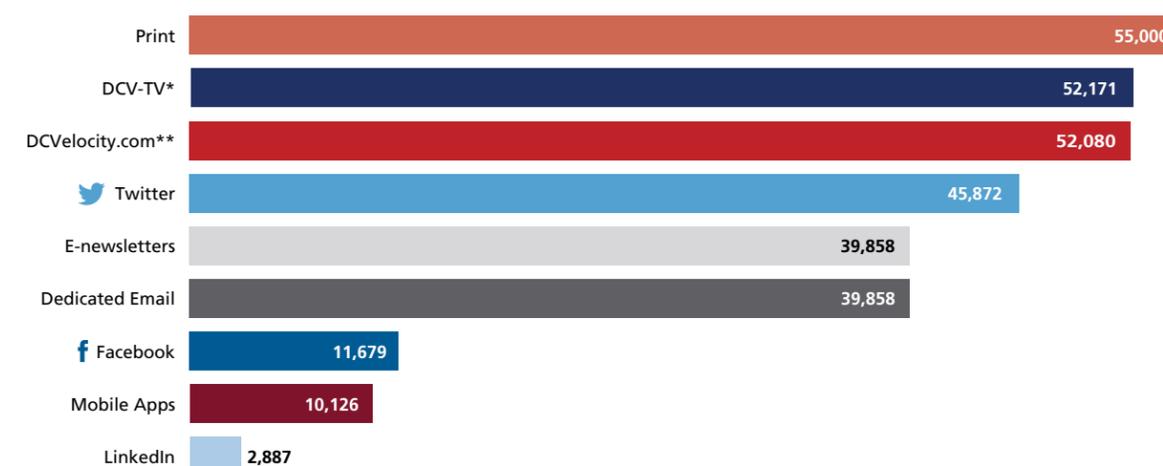

DC VELOCITY's audited circulation covers a combination of corporate-level executives, on-site directors, and vice presidents of logistics operations. Why all three? In a typical company, decision-makers at one level of an operation recommend and specify a project, with decision-makers at another level participating in the final "signoff." This blended audience puts DC VELOCITY above the competition in the scope of its market coverage and assures advertisers that their messages reach the complete buying team.

## When you think logistics, think DC VELOCITY.

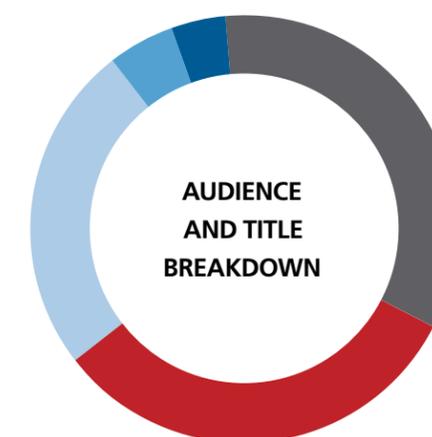

We look forward to building a successful partnership in 2022.

"Throughout the pandemic, we invested heavily in meaningful partnerships with associations, shippers, suppliers, and communities. These efforts resulted in leading industry conversations, developing trust, and adding new consumers of our content. We gained valuable industry insight, invested heavily in our audience development, and learned more about our partners than we ever have before. We are pleased that these efforts ensure the very best audience in the market today."

### "LOGISTICS MATTERS" PODCAST PACKAGE

Each episode of "Logistics Matters" will feature DC VELOCITY editorial team members discussing top stories for the week, examining developing trends, and delivering updates on timely topics. Specifically developed with the edginess that has been a hallmark of DC VELOCITY since its launch, our podcasts are quick-hitting, fun, and informative. The podcast will be sometimes conversational, sometimes personal stories, and sometimes just the news itself.

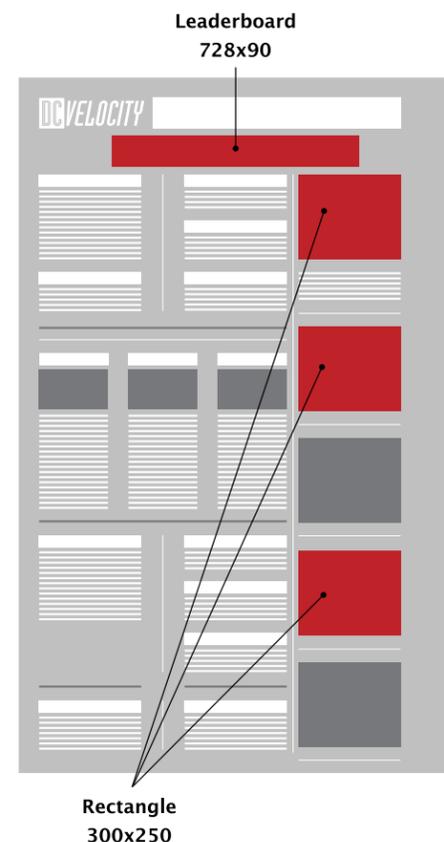

The sole sponsor receives an audio pre-roll, mid-roll, and post-roll callout during each episode. We have found that a 15-second host-read message is a lot more likely to cause listeners to take action within a podcast. Our host-read messages aren't breaks in the show's content — they are a part of it.

The following is included with your sponsorship:

- Social media posts
- Dedicated emails
- E-newsletter banner in "Velocity Weekly" and "Now Trending on DCV-TV"
- Website banners

We will provide reports with full contact information for all those who clicked on the dedicated emails and e-newsletters.

# Our Team of Experts

DC VELOCITY is the product of a team of award-winning journalists and editors with decades of experience reporting and writing on logistics topics.

## WORLD-CLASS EDITORIAL TEAM

**David Maloney**, Group Editorial Director, would be happier sailing his boat on Lake Erie, but he has a wife, too many cats, pond fish, and turtles to support. So, he does the next best thing he can think of — overseeing all print and electronic content created for DC VELOCITY. Before entering the wonderful world of supply chain reporting, Dave was a journalist and television producer/director in Pittsburgh. He continues to use those skills in creating electronic content for the DCV audience, including videos and webcasts. In his spare time (which admittedly is not a lot), he enjoys travel and golf, and is a long-suffering Pirates baseball fan. Dave lists C.S. Lewis as his favorite writer.

**Mitch Mac Donald**, Chairman & CEO of AGiLE Business Media, serves as Group Editorial Director Emeritus of DC VELOCITY and CSCMP's Supply Chain Quarterly in a consultative and advisory role. Mitch began his career as a newspaper reporter before shifting his focus to national business journalism. Twice named one of the nation's Top 10 Business Journalists, he is passionate about music but with absolutely zero musical aptitude. Mitch says that if stranded on a desert island, he would pass the time listening to his "Island 5" of Frank Zappa, The Beatles, Joe Jackson, Roger Waters, and Jason Isbell.

**Karen Bachrach**, Executive Editor, handles editing and daily editorial operations for the magazine. Her role on the DCV team can pretty much be summed up by her Twitter handle: @PeskyEditor. When not at work, she enjoys cycling, hiking, running (maybe "enjoy" is too strong a word here), general gym rattery, and spending time with her family.

**Ben Ames**, Senior News Editor, thinks the best thing about covering supply chain tech is traveling to cool places, meeting new folks in logistics, and learning how their robots and startups are about to change the world. Find him typing tweets and news stories on his laptop in airports, hotels, and warehouses. Or catch him after work paddling kayaks, hiking trails, or losing to his kids at tennis.

**Victoria Kickham**, Senior Editor, started her career as a newspaper reporter in the Boston area before moving into B2B journalism. She has covered manufacturing, distribution, and supply chain issues for a variety of publications in the industrial and electronics sectors, and now writes about everything from forklift batteries to omnichannel business trends for DC VELOCITY.

**Diane Rand** serves as Associate Editor for DC VELOCITY. Although her career dreams of becoming a Formula 1 racecar driver never came to fruition, she has turned her attention to the next best thing: writing about transportation and logistics. Most of her workdays are spent handling new products, managing the magazine's blogs, and tackling special projects. Off the clock, Diane enjoys spending time with her husband and children, tries to find time to train for half marathons, and reads as much as possible.

**Susan Lacefield**, Editor at Large, is one of those people you really don't want to sit next to at a dinner party. That's because the more mundane and pedestrian the supply chain topic, the more she likes to geek out over it. While others may wax enthusiastic about autonomous vehicles, blockchain, and robots, Susan loves to talk and write about wood pallets, corrugated boxes, and bar codes. Seriously. Her son once asked her, "Mom, what's your favorite kind of pallet?" and she actually had an answer for him. That's because Susan believes that even in this increasingly technology-driven world, there are stories and lessons to be found in the most basic of logistics principles and tools.

**Martha Spizziri**, Managing Editor – Digital, has been a writer and editor for longer than she cares to remember. Suffice it to say that her work in the supply chain field includes 11 years at *Logistics Management* and five years as web editor at *Modern Materials Handling* magazine, starting with the website's launch in 1996. She has long experience in developing and managing web-based products. In her off hours, she can be found reading either a classic work of literature or something really trashy. She also enjoys watching both classic and cheesy old films on TCM.

## BUSINESS TEAM

**Gary Master**, President & COO, is a founding principal of AGiLE Business Media, LLC. Prior to joining AGiLE, he was president of Green Associates, a consulting and marketing services firm. Gary has been a key player in the logistics market for more than 28 years. Don't let his experience level fool you, though; his four teenagers keep him current on all the retail and social media trends hitting the market. Gary believes strongly in servant leadership and strives to be a value-added resource for companies seeking leading-edge insights and marketing strategies. He currently serves on several boards of companies and associations that seek to make the world a better place.

**Maria Mac Donald** serves as AGiLE Business Media's Director of Client Success. In a role that requires her to wear many hats, Maria has the pleasure of working closely with the publisher, the sales team, and, most importantly, our customers, keeping people happy while helping to keep things organized and running smoothly. Maria's attitude is the glass is always half full (preferably with a nice cabernet). She enjoys laughing, live music, and getting to the ocean when she can — although it's never enough.

## CREATIVE/PRODUCTION

**Keisha Capitola**, Director of Creative Services/Print Production Manager, has extensive experience in business publication design. When not conceptualizing another innovative and engaging illustration idea for third-party logistics providers, she can be found homeschooling her teenage daughter, managing her family's stable of 20 American Quarter Horses, and competing at horse shows nationwide. Keisha adores her rambunctious toy poodle, strawberry ice cream, and mixed media collage. Still getting used to Southern living, she refuses to add the word "y'all" to her vernacular but enjoys sipping sweet tea on the veranda.

**Jeff Thacker**, Director of eMedia, has built websites and web applications, and managed e-newsletter development for more than a decade. He joined DC VELOCITY in 2004 after five years as a member of the electronic media and production staff at *Supply Chain Management Review* and *Logistics Management*. An avid hockey fan who is still known to lace up his own skates now and again, Jeff can often be heard telling less tech-savvy staff members that "It really is all that complicated."
